AUGUSTA WATER CO. 5 Per Cent. MORTGAGE BONDS.

Due 1904.
We offer them, subject to sale or change in price,
at par and interest.
These water works were constructed in 1904, and
the source of supply is the Kennebec River. The
Company has a complete and safe system for
storage and distribution; a reservoir of six million
gallons capacity, and over twenty-three miles of
main pipe.
The charter of the Water Company gives it a
perpetual franchise.
The Company has a twenty year contract with
the City of Augusta for the hydraulic and municipal
purposes. Its earnings increased during the
past six months \$1,000, and now aggregate \$25,000
per annum; the operating expenses and interest
charges on all outstanding bonds amount to less
than \$10,000 per annum, which leaves a surplus,
after paying all charges, of over \$15,000.
Securities issued by all Water Companies in
Maine are recognized as a desirable and safe invest-
ment.
The present and prospective value of the Augusta
Water Company's works is equal to the value of
no other in this State.

R. G. CHASE & CO., 23 Pemberton Square, Boston, Mass.

The Lone Star COTTON PICKER.

A full-sized machine is now at the office
of the company, 31 Milk St., Boston, hav-
ing recently arrived from Chattanooga,
Tenn., where it has been at work. The
public are cordially invited to call and see it.
The machine is simple and efficient.
Great ingenuity has been displayed in ac-
complishing what was considered by many
familiar with the cotton plant, an impos-
sibility, for it picks the ripe, and only the
ripe, without injury to the unripe, the
bloom or foliage. No revolution in any
industry has been produced in the past that
can compare with what this machine is
destined to make in the production of
cotton in the near future.
The financial success of the telephone
was phenomenal, but parties who let oppor-
tunities to invest in it pass by can excuse
themselves, as there were no precedents or
known facts to guide them. With the
Cotton Picker it is different. The amount
of labor to be performed is known, and
the cost to perform it by present methods
and by the machine.

And the colossal fortunes made in the
manufacture of grain harvesters furnish a
precedent to judge from, although the
Cotton Picker will be a closer monopoly,
with far larger profits and a greater field.
Four-fifths of the human race are clothed
with it. The expense of picking from the
plant is 33 per cent. of its entire value
in the bale. The annual crop exceeds 8,000-
000 bales which cost \$2.50 per bale to grow—
a total of \$20,000,000. This
machinery will harvest it for \$250,000,000,
saving \$87,500,000. No effort, however
great, can supply the demand for this kind
of labor savor to harvest the next crop,
but much can be done. The machines
will cost about \$100 each, so that the man
who purchases 100 shares at par, \$10 each,
will enable the company to build one ma-
chine, which is expected to save fully
\$3000 in labor to the cotton planter. A
equitable division of this will enable large
dividends to be paid, which will be shared
by every stock owner. The stock will be
sold in lots to suit. A single share or
blocks of any size. This is an opportunity
of a life-time, as the future of this com-
pany can be forecast with great certainty
from known facts.

Further information concerning the stock of the
Lone Star Cotton Picking Machine Company, how
offered for sale, can be had by calling up—

KALLOCH & MESERVEY, General Agents for Knox County, 200 MAIN ST., ROCKLAND, ME.

Parties intending to visit Boston can also obtain
cards of introduction and admission to the office
81 Milk St., where the Cotton 17 is kept, may be seen
to operation and its workings explained.

THE CELEBRATED

YORK SAFE

FOR RENT BY
EPH. PERRY.
At Perry's Steam Dye House, 578 Main St.

GOOD TEMPLARS.

The Grand Lodge of Maine I O G
T will meet in Bangor Wednesday and
Thursday of this week in Y. M. C. A.
Hall. The Bangor and Bangor Steamship
Co. will sell tickets for one fare for the
round trip from Rockland and Bangor and
river landings. On sale by the purser
aboard the boat, April 26 and 27, good
till 30, on either steamer.

PRISON POINTS.

The Maine Inspectors of prisons and
jails will depart for Sing Sing, New
York, soon to inspect the state prison
there and pick up what ideas they can to
use in the management of Maine pris-
ons.

Measures have been taken to collect
\$8000 in old bills which are due the
Maine State Prison for goods sold, etc.,
they having been placed in the hands of
an attorney for collection.

THE COOLIDGE CASE.

In connection with the Dr. Coolidge
controversy, we would say that Col.
S. H. Allen, the present warden of the
Maine State Prison, and Hon.
E. K. O'Brien of Thomaston, were em-
ployed at the prison at the time of
Coolidge's death, assisted in laying
him out and were present at the
autopsy. They say that the man who
came to prison as Dr. Coolidge and
whom they saw daily during his incor-
poration, was the man that died.
This certainly is quite conclusive.

TO BELFAST.

J. S. Foster, of Rockport, who is in-
terested in the electric road now build-
ing from Rockland to Camden, was in
the city yesterday. He says he has no
doubt but that the road will be extended
in this direction at an early day. In-
deed, the charter obtained from the
Legislature at its last session for an
electric road from Stockton Springs to
Camden, includes some of the corpora-
tors of the road now building.—Belast
Journal.

THE KEELEY INSTITUTE.

A Rockland Man Who Highly Praises
the Institution.

A well known Rockland man who has
been afflicted all his life with alcoholism
has just returned from a four weeks
course of treatment in the Keeley Insti-
tute at North Conway, N. H., and pro-
nounced himself entirely cured of his old
appetite for liquor. He speaks in the
highest terms of his treatment at North
Conway, and is enthusiastic over his
own evident cure.

OLD AND SMART.

Case Where Extreme Age Does Not
Bring Infirmary.

There has been a great deal in the
papers of late about smart old people.
And we have some in the vicinity.
Daniel Andrews of West Rockport, who
is 93 years old, goes into the woods
every fair day, chopping wood, walks
every fair Sabbath more than two miles
to meeting. He also walked to Rock-
port to town meeting, about five miles.

There is in the same neighborhood two
ladies more than 82 years, the widow
of William Andrews, and Mary Bradshaw,
who are smart and capable.

RAIL AND TIE.

John E. White has resigned the position
of freight agent at the Waldoboro
depot. He will be succeeded May 1
by Carlos T. Clark of East Baldwin.

Conductor Thos. H. Haley who has
been absent six weeks on account of
illness in his family has returned to
work on his train between Lewiston and
Rockland. Baggage Master Mitchell
who has been running his train goes
back to his place on Conductor Cobb's
train.

At the Maine Central yard in Portland
is a car which has been refitted at the
Maine Central shops at Waterville with
an air brake, steps, Miller coupler and
buffer, and an alarm line like the ordi-
nary passenger car. It is intended for
use between Portland and Rockland in
connection with the City of Richmond.
As has already been announced, this
steamer will not run from Portland
eastward, but from Rockland. In order
to give Portland shippers of freight the
same facilities that they formerly en-
joyed, this freight car will leave Port-
land in the afternoon going as far as
Bath on a freight train. Thence it will
be taken by the night Pullman which
will run to Rockland this year, arriving
in this city in time to transfer the freight
to the Richmond.

The Sunday Schools and the Columbian Exhibition.

The work of temperance instruction
in the Sunday Schools has attracted the
attention of temperance workers for a
long time, and the pledging of the chil-
dren as a part of the work. Now some-
thing new has been planned, which is,
to have all the children who will sign
the triple pledge represented at the Col-
umbian Exhibition.

Autograph pledge cards in the nation-
al colors, red, white and blue, are pro-
vided, and when signed, together with
the names of pledged children and young
people the world over, are to be fastened
together and used to festoon the W. C.
T. U. building of the World's Fair. Upon
each card one name, with the name of
the Sunday School, city or town and
state.

These cards are to be had of the State
Superintendent of Sunday School work,
Mrs. E. A. G. Stickney, East Brown-
field, Maine, or at 51 1-2 Exchange St.,
Portland, Maine. Price 10 cents per
package of thirty, assorted colors; 25
cents, for three packages, assorted col-
ors; \$2.50 for 900 postpaid.

In some places through the generosity
of a friend or friends, these cards are
provided free. May there be more such.
Where there is a W. C. T. U. will the
union, if able, furnish them, and where
not, help individually when possible?

When all the names possible have been
secured, the yre to be sent postpaid to
Miss Anna Gordon, Evanston, Ill., who
is to arrange them for use. The number
used, the State Superintendent would
like sent to her.

The National Superintendent, Miss
Lucie E. F. Kimball, has offered a hand
painted banner to the state securing the
largest per cent of autograph triple
pledges. Let us try for it in Maine, and
if we do, with prayerful earnestness, I
believe we shall secure it.

This notice is to be printed in all the
county papers; and let all Sunday
Schools understand they are invited,
rather, urged, to take up this work.
And can not the Y. P. S. C. E., the
Epworth League and any other organ-
ization "lend a hand?"

May the blessing of God rest upon this
work, and all our Sunday Schools.

Yours for the children.

Miss E. A. G. STICKNEY,
East Brownfield, Maine.
State Supt. of S. S. Work.

SILVER ANNIVERSARY.

A Knox County Boy and His Success
in the West.

From a recent issue of the Fremont
Neb., Tribune we take the following
account of the silver anniversary of
L. M. Keene, a native of Appleton and
a brother of H. N. Keene of this city:
"L. M. Keene was Wednesday very
pleasantly reminded that this was the
twenty fifth anniversary of his arrival
in Fremont, by the receipt of a half
dozen solid silver souvenir spoons, pre-
sented him by Vice President May and
the employees of the Fremont National
Bank, of which he is president.
"During those twenty five years of his
residence here, Mr. Keene has seen
Fremont grow from a little village of
but few houses and no trees to a city of
8000 people densely and beautifully
shaded with an abundance of foliage, in
fact one of the prettiest cities to be found
in all the west. When he came here
Mr. Keene was a poor boy, but he had
ambition and courage, a pair of overalls
and an oil cloth bag. With these in-
gredients he went to work, and he can
look back today and see that he has not
lacked in vain. Today he is one of
the best business men in Fremont and
during the development of the city has
been closely identified with its best
interests. He has pursued an igno-
rantly which has led him to seek other
fields for the employment of his capital
and talent. He has been satisfied to
stay right here where he got his start
and he has a competence to show for it.
He has never shirked a duty, public or
private, and the solidity of the banking
institution over which he has presided
for seven years is due largely to his
efforts and is incontrovertible evidence
of his ability as a wise and conservative
financier."

TOWN TOPICS.

Echoes from the Vinalhaven Select-
men's Office—Tax Matters.

The tax rate this year is \$26 on \$1000.
Last year it was \$25.

There are 631 polls, last year 617;
and 77 dogs against 65 last year.

The Selectmen have appointed F. M.
Caldwell Collector of Taxes.

The total valuation as just made by
the Assessors is \$172,560—a slight in-
crease over last year.

OLD PLATES.

Knight & Hill have in their store two
interesting fashion plates of the vintage
of 1851 and 1854. They are original
plates, and the styles represented are
both original and unique.

SNOWY SPRINGS.

The cold weather of last week set
people a talking about previous cold
springs.

Said a Thomaston man: "In 1841 or
1842, about the 10th of April, the snow
was over the fences."

Said a Union man: "I have been
into Rockland on runners April 6."

GRANITE CHIPS.

The Bluehill granite works are a little
tardy about commencing operations this
year. The quarrymen want \$2 per day
and the company are in doubt about
complying with their demand.

The contract for the "grooving" for
Portland has been awarded to the Maine
and New Hampshire Granite Co.

SCHOOL DISTRICTS.

Rockport's school districts have been
renumbered and reduced as follows:
No. 1 includes nearly all of old districts
to 12, 13, and 15, a portion being set off
to No. 4. No. 2 includes old No. 10.
No. 3 includes old No. 11. No. 4 in-
cludes old No. 9 and a part of 12 and 13.
No. 5 is not changed.
The Surveyor Districts are reduced to
five.

PLEASANTLY ENTERTAINED.

A party of twelve Rockport young
ladies, Katie Lane, Carrie Piper, Louise
Dillingham, Carrie Fuller, Ada Morse,
Maud Knight, Isabelle Linnell, Tonie
Pitts, Maud Norwood, Della Carleton,
Hattie Luce and Edwina Lovejoy enter-
tained an equal number of young friends
at Engine Hall on the evening of the 9th.
Refreshments were served and the even-
ing pleasantly spent with popular games.
The two booby prizes were awarded Ada
Morse and Fred Thomas.

CAMDEN CHAT.

E. S. Rose was at the Hub last week.
There is one case of scarlet fever in
town.

Sch. Flora Rogers is on the Belfast
Marine Railway for repairs.

The soda now fizzes. J. H. Gould
tapped his fountain Saturday.

A Mr. Flanders is to open a restaurant
in the Perry building, Postoffice Square.

The Lincolnville S. of V. Camp will
participate in the Camden Memorial Day
services.

J. H. Curtis & Son now have a very
attractive and well arranged place of
business.

Henry Parker won the prize for sell-
ing the most Boston Globes in town—a
new dollar.

E. C. Fletcher is in charge of the
E. B. Boynton drug store while the
popular proprietor enjoys his wedding
trip.

T. C. Atwick is to improve his store
with plate glass and other gift edged
embellishments. Verily this is an era
of improvement in Camden.

The phonograph man and his little
machine have been entertaining people
in Rose Bros.' drug store. The "Cassio
Stannard Parlor" was a favorite.

J. H. Sherman's fine new house is
rapidly approaching completion, and
will be ready for occupancy in June.
S. N. Southard & Son of Rockport are
the contractors.

The Waltham watch in J. B. William-
son's window continues to attract the
attention of the boys. It is to be given
to the boy who will sell twenty COURIER-
GAZETTE for fifteen weeks, fifteen
COURIER-GAZETTES for twenty weeks or
ten COURIER-GAZETTES for 30 weeks,
and so on. Boy Alden is making a
noble effort for the watch.

WILEY'S CORNER.

Work at Clark's Island is starting up.
Miss Mary Robinson has gone to Port-
land.

Norman Wardwell will teach the spring
term of school in district No. 1.

Mrs. Russell Coburn and family have
moved into the John Hawks house.

UNION.

F. L. Whitten intends moving his
family here.

H. T. Miley of Rockland has moved
to this town and will occupy a part of
the house owned by John Danton.

Brampton and afterwards that of Gresham
Marwood; his invention of the power loom
was made in 1785; as has often been the
case concerning the saving machinery, the

Character of the German Emperor.

The new emperor, on mounting the
throne, was of course expected to sus-
tain the policy of a minister whom his
grandfather had honored with an
offer to come to New York for five years
at an annual salary of \$100,000. Whether
this report be true or not, it has occa-
sioned a good deal of gossip.Perhaps in nothing more than in the
question of salaries is there so much
said that is untrue. I have no doubt
there are a small number of gentlemen
who are paid from \$25,000 to \$100,000 a
year for their services, but whether they
are worth it or not is another question.
The tendency is always to exaggerate
on the salary question anyhow, and it
is more than likely that not half the
sum mentioned is actually paid to any
man.It is the same way with the authors
of books. A little while ago it was said
that Ward McAllister had received \$25,-
000 for his published volume on "Soci-
ety as I Have Found It." Mr. McAllis-
ter now comes forward and spoils this
pretty fiction by stating positively that
he received only about \$5,700, and that
is why he hesitates about accepting an
offer made to him by a Chicago firm of
publishers. He says there is no money
in books.The men who are paid \$100,000 a year
in New York for any services whatever
are so few as to be innumerable. Those
who receive \$25,000 a year are proba-
bly numbered inside of a hundred. Those
who receive \$5,000 a year are of course
more numerous, but there are not enough
of them to cause any very general dis-
turbance in financial centers. And I am
quite inclined to the belief that any man
who receives from \$10,000 to \$20,000 a
year as salary is, like the famous Reilly
who kept the hotel, doing exceedingly
well.—Foster Coates in New York Mail
and Express.

A Dog's Fidelity.

A living example of a dog's fidelity is
presented by what Newfoundfound
owned by the late Oscar McCulloch.
He is a large dark brown fellow and is
well known to the congregation of the
Plymouth church. He was generally
permitted to attend church services, fur-
nishing the life of his master, and in fact
was considered a privileged character
about the institute. On rare occasions
he was even dignified with a place at
the Rev. McCulloch's feet in the pulpit.
At the meeting of the National Associa-
tion of Churches last year at Plymouth
church building, he appeared regularly every
morning and afternoon upon the res-
troom with his master.The dog still goes to church and walks
